

Chamberlain Farm
PO BOX 253
Stoddard, NH 03464
446-7332

Hello all past and future farm members,

Welcome to the third year of Chamberlain Farm. As you all know, 2009 was the year of no summer. It doubled the workload of every farmer in New Hampshire. Despite the horrific weather, we did manage to have a wonderful bounty of fresh local food each week.

Vegetables will again be available to anyone interested in prepaid membership for a weekly offering of fresh produce.

All crop production is done with organic methods. There are NO chemical fertilizers, pesticides, herbicides or fungicides used. This benefits the environment and health of the people consuming the garden produce.

The vegetables offered in the memberships are largely traditional vegetables including Herbs, Beans, Beets, Broccoli, Cabbage, Carrots, Cauliflower, Celery, Chard, Cukes, Eggplant, Flowers, Garlic, Kale, Leeks, Lettuce, Onions, Peas, Peppers, Potatoes, Radishes, Spinach, Summer Squash, Winter Squash, and TOMATOES!!!!

The economy dictates the cost of goods, including seeds and all other materials required to grow our crops. A share will cost \$380 for the 20 week season (\$19 weekly) and will feed a family of 4. If you comparison shop other locally grown, organic vegetables, you will find this to be an excellent value. (Not to mention the fun of coming to the farm every week and learning how to freeze and preserve all the extras!!!)

Your weekly offerings will be available on Fridays from 2 to 4 p.m. One of the unique aspects of Chamberlain Farm is we do all the harvesting for you. Once again, you will be invited to the farm every week to gather your produce and to socialize and share recipes. Many new friendships began last year and we hope with new members, this will continue a wonderful trend.

Please contact me regarding your interest in our offerings. We are looking forward a much better growing season in 2010.

Thank you for your support.
Warmest regards,

Marilyn Chamberlain
